THANK YOU

For Risking Your Lives To Save Ours!

A special shout out to the firemen who wear cuts when they are not in firefighting gear. Helping others is part of who they are, in and out of uniform. These firefighters say giving back is in their blood. "I think that's how we're built, that's how we're wired," says one Axemen member.

Firefighter motorcycle clubs are among the most giving groups of riders. They hold many charity events throughout the year, donating money to organizations such as burn camps for children, hospitals, and medical research (cancer, Parkinson's, ALS, etc). They do fundraisers to provide books and school supplies for kids and are involved in many other worthy causes.

How many members of these clubs have you met? We thank them for their service!

The Red Knights Motorcycle Club is a social club for firefighters and their families who enjoy riding motorcycles. Members share the camaraderie of other firefighters while promoting the positive image of motorcycling through social, charitable and educational activities. The club was established in 1982, and there are now over 10,000 members in 325 chapters worldwide.

The Axemen Motorcycle Club was founded in 1998. The purpose of forming this club was to have a club exclusive to IAFF members, working and or retired. Their group shares the Brotherhood of both firefighting and motorcycling and the traditions that come with both. The Axemen nation has now grown to comprise 33 chapters in 16 states across the country.

The IAFF Motorcycle Group was created in 2004. They are a motorcycle group ("not" a motorcycle club) designed to bring together active and retired members and members of recognized affiliates from across the International union and to promote fraternalism among the IAFF's ranks. Over 4,700 IAFF members have joined the Motorcycle Group over the last several years.

BIKE REVIEW:

2021 Harley-Davidson Pan America 1250

Adventure is the name of the Pan Am game and Powering the Pan America 1250 is H'D's new Revolution Max 1250, a liquid-cooled 60-degree 1,252cc V-twin. Crankshaft connecting-rod journals are offset 30 degrees, making for a 90-degree firing order, which Harley claims produces more on-power traction in the dirt. The Pan America 1250 starts at \$19,999. What do you think of the bike? Send us your comments!
